 **ICISE, Quy Nhon, Viet Nam**

## Important Dates

**01/10/2021**

First announcement

**10/11/2021**

Abstract submission deadline

**15/11/2021**

Acceptance announcement

## RENCONTRES de QUY NHON IV BIOLOGY CONFERENCE 2021

Research collaborations & Networking:  
a challenge and opportunity during  
Covid-19 pandemic.

**CALL FOR ABSTRACTS**

## Contact

For General Inquiry: Dr. Nguyen Van Phuong - [nguyen-van.phuong@usth.edu.vn](mailto:nguyen-van.phuong@usth.edu.vn)

For Exhibition & Sponsorship Inquiry: Dr. Tran Thanh Son - [tranthanhson227@gmail.com](mailto:tranthanhson227@gmail.com)

## Conference Themes:

1. The evolution of Coronavirus. Updating on the Variants of SARS-CoV-2
2. Bio-pharma-medical research and development on bioactive compounds and vaccines targeting Covid-19 and other related diseases. The global visions and case study in Vietnam.
3. Search for molecular markers associated with different variants of viruses.
4. Updating on SARS-CoV-2 infected patients: disease severity on various groups of patients.
5. Antimicrobial resistance in human and animals, including that in parasitology.

## Conference format:

The conference will use a range of formats: Keynote speaker presentations in the plenary session, poster exhibitions, oral presentations in the parallel sessions, exhibitions and training courses from private companies and enterprises operating in the fields of Biomedicine and Pharmacy, open roundtable discussions and excursions which will offer opportunity for you to further networking and discover the beauty of Quy Nhon.

## Conference activities

**Plenary talks:** A total of 8 key note talks will be presented during plenary session. There will be one plenary session each morning and each afternoon of the Day 1 & 3 before coffee/tea breaks. Please explore the homepage of the conference to learn more about the invited key note speakers, the title and abstract of their oral presentation.

**Parallel sessions:** Delegate oral talks will be presented during parallel sessions. Detailed regarding the number and arrangement of the parallel sessions will be posted on the homepage of the conference after we have received and evaluated the abstracts

**Poster sessions:** Posters will be presented during coffee/tea and lunch breaks.

**Group and general discussions:** We plan one-hour discussion in small groups just after each parallel session to address key methodological limitations depicted from oral presentation by junior researchers. Before closing session, a general discussion will be delivered with the current issues related to the main themes of the conference.

**Training sessions:** We plan the parallel training sessions on essential equipment and/or cutting-edge techniques for corresponding topics.

**Outdoor activities and Team building:** This session will provide more time for delegates to freely discuss, exchange, and promote networking amongst junior researchers. The conference will be closed by a gala party at ICISE which is also team building activities for all attendees. More details will be informed you officially.

**Conference Awards:** The awards will be designated to reward presentations of excellent investigation. A committee of experts will evaluate the abstracts and presentations and will select the best talks and poster presentations. The conference will also reward the excellent women scientists and good Vietnamese ethnic-minority researchers.
